DR. JOHNSTON IS
MADE PRESIDENT

Richmond Man Chosen Head of
Surgeons of Norfolk and
Western Railway.

CAR SANITATION IS URGED

Dr. Wertenbaker Would Abolish
Porter's Whisk Broom—Meet
on Boat To-Day.

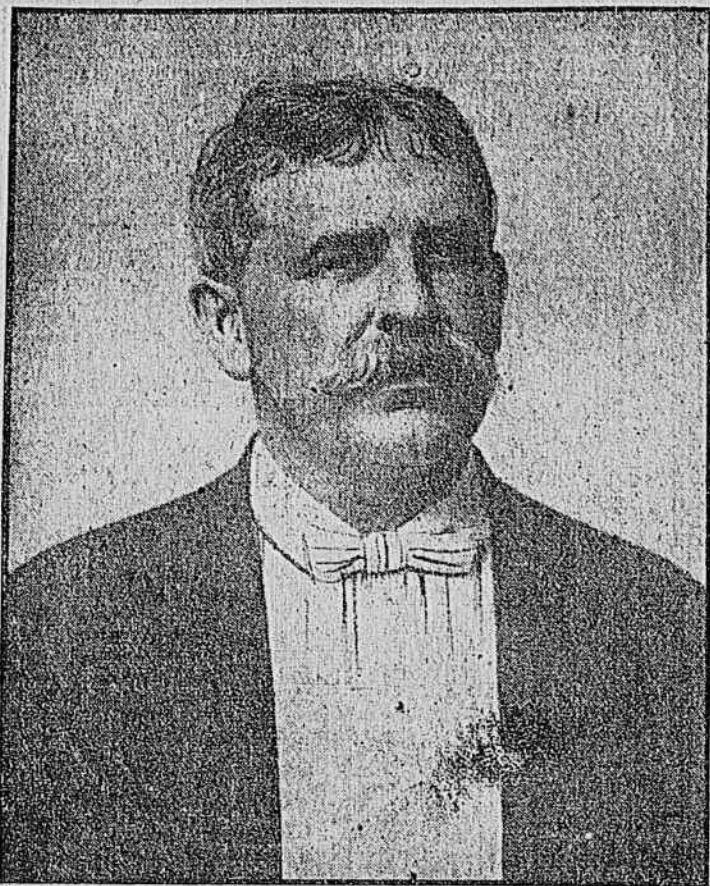

In recognition of the manner in which Dr. George Ben Johnston, as chairman of the committee on arrangements, had made preparation for the coming of the Association of Surgeons of the Norfolk and Western Railway, that body yesterday unanimously elected him president for the ensuing year. Following are the other officers chosen: Vice-Presidents—Dr. W. R. Williams, Richlands, Va.; Dr. J. F. Fox, Bluefield, W. Va.; Dr. N. P. Oglesby, Columbus, O.; Dr. J. W. Simmons, Martinsville, Va.; Secretary and Treasurer, Dr. J. R. Garrett, Roanoke; Executive Committee—Dr. Joseph A. Hall, Cincinnati, O.; Dr. N. P. Oglesby, Columbus, O.; Dr. R. W. Holmes, Chillicothe, O.; Dr. J. T. Haller, Pocomoke, Va.; Dr. W. E. Anderson, Farmville, Va.; Dr. J. S. Hadden, Portsmouth, O.; Dr. Joseph A. Gale, of Roanoke, is the chief surgeon of the road.

The Norfolk and Western surgeons were in session throughout the day at the Jefferson Hotel. They came by a special train, run for this purpose by the road, starting from Columbus. Sleepers were run from Columbus, Cincinnati and Bristol, and surgeons were picked up all along the line. The train arrived in Richmond yesterday morning at 7:30.

Will Go Down River.
This morning at 6:30 the association will board the Pocahontas for a trip down the James, continuing the program en route. The special train will leave Norfolk to-night at 9 o'clock, taking the surgeons back to their homes.

Most of the papers read yesterday were on technical subjects. Perhaps that which created the most widespread interest was an address on "Railway Sanitation," by Dr. C. P. Wertenbaker, of the United States

HONORED BY SURGEONS

DR. GEORGE BEN JOHNSTON.

Public Health and Marine Hospital Service. He was detailed by Surgeon-General Wyman to deliver a special address on this subject.

A Ban the Duster.

If Surgeon Wertenbaker has his way, the feather duster and the whisk broom of the fabulously rich Pullman porter will be abolished and wiped from the face of the earth, and the sable individual must find some other excuse for soliciting the quarters of the passengers. These instruments of cash extraction are condemned as unsanitary, as they only remove dust from one place and scatter it over the passengers in another. The use of a vacuum cleaner for removing dust from the clothing of passengers and from the interior of the car, was recommended. Such a cleaner, he said, could be operated by the dynamo which furnished electric lights for the train, or by power generated from the moving wheels of the train itself.

The benefit to the public and to the railroads would be tremendous. Installed Dr. Wertenbaker, if the railway surgeons of the country would do their best to help correct unsanitary conditions which come under their notice. Of necessity, he continued, railroads play an important part in the

spread of disease, because they facilitate travel between distant points, and also because they carry flies, mosquitoes and other insects, and in this way help to spread typhoid fever, yellow fever, malaria and other diseases.

Railroad's Responsibility.

Not only cars but stations need improvement, this being especially true in the smaller places. The floors should be sprinkled with disinfecting solution and swept daily. Waiting rooms should be ventilated and the common drinking cup abolished without delay, the public being advised to use individual cups.

Dining cars and kitchens should be inspected. He predicted a great financial harvest for the first railway which establishes sanitary conditions on its property, and advertises these conditions to the public. "Health," he concluded, "is the greatest asset that an individual or a nation can have, and sanitation is its foundation stone."

W. S. Battle, Jr., general claim agent for the Norfolk and Western, spoke on "The Surgeon, the Public and the Company." He said that of all railway men, the surgeon comes in contact perhaps with a greater variety of human nature than any others. Therefore, he regarded it as the duty of the railway surgeon to promote better relations between the company and the public, both of whom they serve.

After the meeting had been called to order yesterday morning, by Dr. Johnston, chairman of the arrangements committee, Rev. J. N. Latham offered prayer. The address of welcome was by Mayor Richardson, and the response was by Dr. M. W. Jewett, of Ivanhoe.

Dr. Leigh's Address.

This was followed by the annual address of the retiring president, Dr. Southgate Leigh, of Norfolk, on "Thoroughness." Its title indicates its purport, and it was delivered in Dr. Leigh's well known happy style.

In the afternoon aside from Dr. Wertenbaker's address, there were papers by the following: Dr. S. S. Gale, of Norfolk, on "Differential Diagnosis of Internal Abdominal Injuries in Railway Surgery"; Dr. A. Murat Willis, of Richmond, on "Septic Infection of the Extremities"; Dr. C. F. Kline, of Portsmouth, O., on "Inflammation," and Dr. C. W. Doughtie, of Norfolk, on "Some Remarks on Railway Injuries and Their Treatment."

A trolley ride was taken in the afternoon over the city. Last night a reception was tendered the members of the association by Dr. George Ben Johnston and Dr. A. Murat Willis at the Westmoreland Club. In the afternoon the women of the party were entertained by the wives of the local members at the Commonwealth Club. The Norfolk and Western Railway is the host of the association on trains and boat.

ANNUAL SESSION OF EAGLES' ENDS

New Officers Elected, and Portsmouth Chosen as Next Meeting Place.

[Special to The Times-Dispatch.] Hampton, Va., June 15.—With the selection of Portsmouth as the place of meeting next year, and the election of officers, the Grand Aerie of Virginia Eagles ended its sixth annual convention here to-day. The officers are as follows: President, J. B. Graves, Clifton Forge; Vice-President, C. S. Johnson, Roanoke; Chaplain, J. T. Brown, of Petersburg; Conductor, E. V. Peace, Staunton; Inside Guard, J. W. Cherry, Norfolk; Outside Guard, M. Asher, Norfolk; Secretary, C. W. Stanglen, Phoebus; Treasurer, J. E. Flood, Portsmouth; Trustees—Andrew Bell, Charlottesville; Jack Miller, Suffolk; W. P. Lemon, Richmond.

Taken Like Its Name.

The best audience of the week saw "Wildfire" at the Academy last night, and gave it a vote of approval. It is by far the best work of the Schiller Players this season, and it does not suffer greatly by comparison with another company which presented it here last season. Next week "Girls," by Clyde Fitch, will be the attraction.

Sick and Ailing?

Women Should Read This

Backache, headache, weakness, nervousness, discouragement and ill temper—the pains and distress of womanly weakness—keep many women from finding much pleasure in life. They could be spared such suffering and live in comfort, if they would only benefit by the experience of others, who have been helped to health and happiness by Cardui, the woman's tonic.

Mrs. E. A. Smith, of Goldsboro, N. C., in a letter from that place, writes: "I had many distressing symptoms of womanly trouble. My head troubled me, and I had a pain in my left

side. The physician who treated me gave me no relief. I decided to try Cardui. After taking it, I am now well. Cardui has helped me very much, and I recommend it to all suffering women."

Cardui is a purely vegetable, mild, gentle-acting tonic, for women. Its wonderful success, in treating cases of womanly weakness and disease, during the past 50 years, is due to the fact that it goes to the source of the trouble, and helps nature build up the womanly constitution in a perfectly natural manner.

Begin to take Cardui today. It will help you.

Take CARDUI

CLOSING EXERCISES OF THEOLOGICAL SEMINARY

Diplomas of Graduation Presented and Degree of Bachelor of Divinity Conferred on Several Candidates—Bishop Gibson Presides.

[Special to The Times-Dispatch.] Alexandria, Va., June 15.—The commencement exercises incident to the close of the eighty-eighth session of the Episcopal Theological Seminary of Virginia, located west of this city, took place this morning at 10 o'clock. The president, Bishop Gibson, and all of the professors, vested in their academic gowns and hoods, together with the students and members of the alumni, marched in procession from prayer hall to the chapel, where the exercises were held.

After the singing of a hymn and prayer by the president, essays were read by three members of the graduating class in the departments of church polity, history and the Greek Testament. The names of those advanced from the present junior to the middle class of next year, and from the present middle class to the senior class of next year, were then announced.

The following members of the senior class, who did not take the full course leading to graduation, received certificates for the departments of study taken by them: Charles Aylett Ashby, B. L.; Henry Erving Batchelor, Walter Griffith Harter, William Henry Pettus, Walter White Reid, Jr., and John Letcher Shovel, B. S.

The following received diplomas of graduation from the seminary: Edward Ryant Dyer, A. B., of the Diocese of Texas; Horace Dwight Martin, of the Diocese of Kentucky; Robert Theodore Phillips, B. A., of the Diocese of Atlanta, Ga.; Clarence Herbert Reese, of the Diocese of Washington; Robert Edward Lee Strider, M. A., of the Diocese of West Virginia; Joseph Edmund Thompson, A. B., of the Diocese of Lexington, Ky.; and Haywood Lewis Winter, of the Diocese of Texas.

The degree of bachelor of divinity was conferred upon the Rev. Karl Morgan Block, A. B., of the Diocese of Washington, chaplain of Woodberry Forest School, Va.; the Rev. Edmund J. Lee, M. A., of Auking, China; the Rev. Thomas K. Nelson, M. A., of St. John's College, Shanghai, China; and the Rev. William M. M. Thomas, B. A., of Brazil.

The following graduates of this year, having attained the required standard in their studies were recommended for the degree of bachelor in divinity: Robert T. Phillips, B. A.; Clarence Herbert Reese, Robert E. Lee Strider, M. A., and Haywood Lewis Winter. They will receive their degree after writing an approved thesis, and on their ordination to the priesthood.

Address by Rev. H. B. Lee.—An excellent address, full of helpful suggestions, was delivered to the senior class, with reference to the ordination of its members to the sacred ministry, by the Rev. H. B. Lee, of Charlottesville. The session of 1910-1911 was then declared closed by the president, Bishop Gibson, after the singing of the hymn, "Blest Be the Tie That Binds" and the benediction.

The annual meeting of the alumni of the seminary took place shortly after the conclusion of the commencement exercises, with the president, Bishop Peterkin, in the chair. The class of 1910-1911 was presented to the alumni and received by the president in the name of the alumni.

An interesting essay was read by Rev. A. B. Kinsolving, D. D., of St. Paul's Church, Baltimore, on the work of the Holy Spirit. Some members of the class of 1861 were present for a reunion.

The alumni dinner was a feature of the day, with a number of after-dinner speeches.

The ceremonies will be brought to a close at 11 o'clock to-morrow morning with the ordination of several to the priesthood. Many prominent churchmen in the Episcopal faith will attend these services.

Detroit Purchases Bauman.
New Bedford, Mass., June 15.—Announcement was made to-day that Patrick Bauman, second baseman of the New Bedford Club, in the New England League, has been sold to the Detroit Americans and will join that club in the fall. Bauman brings \$2,500 to New Bedford, and First Baseman Ness, of Detroit.

Will Be Conspicuous at Coronation
Lord Roberts, the famous English general, will be a conspicuous figure in the coronation ceremonies, especially as bearer of one of the King's swords. "Bobs" is popular with the British public, which is familiar with his long years of fighting in India, Afghanistan, South Africa and elsewhere.

DECREE ENTERED BY JUDGE BARLEY

Action Follows Arguments on Exceptions to Report of Special Commissioner.

[Special to The Times-Dispatch.] Alexandria, Va., June 15.—Arguments were heard to-day in the Corporation Court, Judge Barley, presiding, on exception to the report of John M. Johnston, special commissioner, in the case of T. J. Fannon, and others against the defunct Virginia Safe Deposit and Trust Corporation.

A decree was also entered ordering certain parties in Lexington, Nelson county, who had withdrawn their deposits from the branch of the Virginia Safe Deposit and Trust Corporation after that institution had passed into the hands of receivers, to refund the same within ten days. Should they fail to do so, the clerk was instructed to issue a rule against them for contempt of court.

Among those who made arguments on the exceptions filed were Harmon & Walsh, Charlottesville, counsel for the Vickers estate; Attorney Elliott, of Charlottesville, for St. Paul's Guild, of that place; Attorney Carusi, of Washington, and G. L. Boothe, this city, counsel for the American National Bank, Washington, and Samuel G. Brant, attorney for S. R. Donahoe State Auditor.

CONFESSES TO ROBBERY.
Negro Admits Taking Letters From Farmville Post-Office Box.

[Special to The Times-Dispatch.] Farmville, Va., June 15.—For many weeks the post-office box of the Farmville Herald has been persistently robbed of letters, containing checks, money orders, stamps and currency. Almost a constant lookout has been kept up for the thief, not only by the postmaster and the local police, but by a government detective from Washington, and it was not until this morning the guilty person was caught in the act. At an early hour W. H. White, colored, walked hurriedly into the post-office, opened the Herald box, took several letters, among which were two checks, containing marked currency. It was soon afterwards that he returned to the stamp window and called for two postal cards, handing one of the decoy dollar bills to the clerk in payment. Arrest followed, and he made a full confession. The negro said he had found a key which fitted the box, and that he had been robbing the mail for some time. He informed the police that in all he had destroyed about thirty-five checks, one money order, and had gotten \$5 or \$10 in currency. He is in jail awaiting the arrival of a post-office inspector.

SHOOTS WIFE THROUGH HEART; ENDS OWN LIFE

Staunton Shocked by Murder and Suicide, Caused by Domestic Troubles.

[Special to The Times-Dispatch.] Staunton, Va., June 15.—The most thickly settled residential section of the city was startled at 1:30 o'clock this morning by rapidly fired shots in the street, which caused a murder and a suicide. David Kincaid, of Buffalo Gap, shot his wife through the heart with a .35-calibre revolver, and then turned the weapon on himself, and both were found dead, the woman's arms clasped around her husband's neck.

The couple had separated the day before, and the wife had come to Staunton to the home of a relative, John Fielder, of 224 South St. Clair Street.

The tragedy was enacted in the presence of Mrs. Betty Rhodes, mother of the man's wife, and a ten-year-old boy, who were seated in a buggy a short distance away. Kincaid had persuaded Mrs. Rhodes to accompany him to Staunton to have her aid in securing a reconciliation with his wife. Kincaid tried to persuade his wife to go back to him, and when she refused he dragged her down the steps and into the street, and then shot her. He then turned the weapon on himself, and sent a bullet through his own head.

The couple leave an infant, which the dead woman had brought with her to the Fielders' Mr. and Mrs. Kincaid had been married about five years. Before marriage Mrs. Kincaid was Miss Lacey Rhodes, and was only twenty years old when murdered. A brother resides in Staunton, and makes his home with the Fielders.
